If you still have questions after reading these instructions for use, please contact your treating doctor/primary care physician or pharmacist.

Product description

Depyrrol Basis NF is a vegetarian capsule with a neutral taste. The product is available as a package containing 60 capsules.

Composition

Depyrrol Basis NF is a nutritional supplement and contains per daily dose (=1 vegetarian capsule):

Ingredients		Elementary	%RDD
Vitamin B6	(as pyridoxal-5-phosphate)	25,00 mg	1786%
Zinc	(as zinc gluconate)	25,00 mg	249%
Manganese	(as manganese gluconate)	4,80 mg	240%

Ingredients: Zinc gluconate, vegetarian capsule (hydroxypropylmethylcellulose), filler (microkristallijne cellulose), manganese gluconate 2H₂O, pyridoxal-5-phosphate, stabilizer (stearic acid), anti-clumping agents (colloidal silicon dioxide and magnesium stearate).

Depyrrol Basis NF

There are naturally vitamins and minerals present in the body, and they are responsible for various important processes. To ensure optimal functioning of the body, it is important to provide these essential vitamins and minerals in sufficient quantities in your diet.

Special warnings for use

Depyrrol Basis NF should preferably not be used during pregnancy. Pregnant women are advised to take Depyrrol Plus NF. Children aged 2 to 12 years old are advised to take Depyrrol Kind NF. A nutritional supplement does not substitute for a varied diet and a healthy lifestyle. Depyrrol Basis NF is generally tolerated well. In rare cases slight stomach upset is noted at the beginning. In addition, it can affect the menstrual cycle in rare cases. Long-term daily use of a large quantity of vitamin B6 (more than 25 mg per day) can cause mild tingling or numbness of the limbs. Depyrrol Basis NF should be used with polyneuropathy (tingling or numbness of limbs) and severe psychological symptoms only on a treating doctor's recommendation.

Posology and method of administration

Unless prescribed otherwise, for adults and children aged over 12 years old: the first 3 weeks, 1 capsule every other day. Then 1 capsule daily. Take it with a glass of water, fruit juice or tea during breakfast.

The capsule may be opened if you prefer a lower dose. The recommended daily dose should not be exceeded.

If Depyrrol Basis NF is not tolerated as well as before, it is recommended to use first Depyrrol Plus or Depyrrol Kind NF.

Period of use

You can take Depyrrol Basis NF for as long as necessary.

Storage instructions

The shelf life of Depyrrol Basis NF extends to the expiry date printed on the packaging and the label after the phrase "expiry date".

Keep Depyrrol Basis NF always out of reach and sight of young children!

These instructions for use were last revised in September 2014.
